## *Message from the Director*

# Welcome to the 2013 Instrumental Pops Concert

This year, the theme for the "Pops" Concert is "Lights, Camera, Action!" In other words, Movies!

Music can describe the emotion of a movie. It can evoke feelings of drama, suspense, anger, tears..... The music transforms us to far away worlds. Composers are magic makers of visions and recollections of scenes through music. We recall Claude-Michel Schönberg's image of the French Revolution with the melodic sounds of dreams being wasted or Dorothy's longing for a make believe world where dreams do come true thanks to Harold Arlen. It can even produce a desire to grab an umbrella and tap dance and sing our way down a sidewalk in the rain w/Gene Kelly and Nacio Herb Brown.

Tonight, we will play a variety of songs written by legendary composers which will hopefully transport you, the audience to far off places as remembered in various movies. Howard Shore drives our thirst for adventure into middle earth in search for lost kings and a way into Mordor.

Monty Norman's iconic theme for a timeless secret agent envisions missions full of beautiful women, fast cars, handy gadgets and a handsome British accent.

John Williams transports us through platform 9 & 3/4 into a mystical place of magic where good prevails over our demons. Who doesn't shiver with suspenseful fear when we hear the famous "Jaws" theme performed using minimal notes? John Williams is a modern movie music marvel with an enormous gift of musical magic. His themes have defined the musical expectations of a generation of movie-goers, much like the composers as Korngold and Bernstein in the past.

We end tonight with the entire music department performing music from the movie "O Brother Where Art Thou" which is a retelling of the Odyssey set in early America and featuring early American Music which shows how movies and music can transport us to different time.

I invite you to sit back while you are transported to your favorite movies as the award winning Instrumental Music Department performs a wide range of movie music from the past to the present.

Thank you,

*Matthew Schuch*

A celebratory graphic for Jacob. It features a central text area with a musical staff at the top. To the left is a photo of a young man playing a saxophone. To the right is a photo of a young man at a DJ booth with a large cartoon character of a rabbit behind him. The entire graphic is decorated with several five-pointed stars.
